Water Main Replacement Will Close Park Avenue, Speedway to 2nd St.

Tucson Water will be replacing a water main and installing new services for the Park Avenue Housing project, a new student housing complex. The work will require the closing of Park Avenue from Speedway Boulevard to 2nd Street from Monday, December 23, through Friday, January 10.

Park Avenue from Speedway Boulevard to 1st Street will also be closed from January 24 to January 26, 2014, for the removal of the crane at the Park Avenue Housing project.

Businesses in this area will remain open and be accessible during the project.

Vehicular traffic should access the University of Arizona from Euclid Avenue, using University Boulevard, 1st Street or 2nd Street, or from Cherry Avenue at Speedway Boulevard. Bicyclists and pedestrians can use Olive Road underpass just east of Park Avenue and Speedway Boulevard to access campus.
